RE: Response to U.S. EPA CERCLA Section 104(e) Request for Information for the
Texas Township Drum Site in Kalamazoo, Kalamazoo City, MI, CERCLIS ID:
MIN000510313

Dear Ms. Adams:

I am responding on behalf of Rochester Community Schools (“RCS”) to the U.S. Environmental Protection Agency’s (“U.S. EPA”) May 16, 2012, letter concerning the above-referenced subject matter. Responses to “Enclosure B” are attached.

RCS allowed Environmental Network, Inc. (“ENI”) to use its name as a “reference,” however, RCS waste never was sent by ENI to the Texas Township Drum Site in Kalamazoo. All manifests for RCS waste are included with the response to U.S. EPA’s CERCLA Section 104(e) letter.

RCS has objected, for legal reasons, to the Responses attached. Additionally, in some cases, the Request is not applicable to RCS and no further documentation is provided. It is not the intent of RCS for U.S. EPA to infer from these objections or statements of inapplicability that RCS is not cooperative with the Agency. Should U.S. EPA desire additional information, RCS will cooperate and provide a supplemental response.

Respectfully submitted,

US EPA RECORDS CENTER REGION 5

Rochester Community Schools

Frederick C. Clarke, Superintendent

Enclosures (Responses to “Enclosure B” and manifests)

2010-09-02 09:13:32

Rochester Community Schools
Responses to “Enclosure B”

General Objection A: The Rochester Community Schools (“RCS”) objects to all of the Requests as overly broad and not relevant as they, with the exception of Requests h) and n), are limited to the Texas Township Drum Site. Notwithstanding and without waiving this objection, RCS has responded to the Requests to provide documentation evidencing that its waste was not delivered to the Texas Township Drum Site.

General Objection B: RCS objects to the Requests to the extent that they exceed the authority granted to the U.S. EPA under CERCLA Section 104(e), as there is no “reasonable basis to believe that there may be a release or threat of release . . . “ at any of the locations where RCS waste was delivered.

Notwithstanding and without waiving the General Objections, RCS responds as follows:

- i) Identify all persons consulted in the preparation of the answers to these Information Requests.

Response: In addition to the attorneys at Clark Hill, PLC, RCS consulted with the following employees in the preparation of this Response:

Mr. Pat Murphy, Manager Maintenance/Grounds, Rochester Community Schools

Mr. Gary Dennis, Manager Custodial Services, Rochester Community Schools

Mr. Jeffrey Green, Head Groundsman, Rochester Community Schools

Ms. Colleen Mayes, Manager, Transportation, Rochester Community Schools

Mr. John Stoner, Director of Operations, Rochester Community Schools'

Mr. Jim Turner, sales representative, Environmental Network, Inc.

- ii) Identify all documents consulted, examined or referred to in the preparation of the answers to these Requests, and provide copies of all such documents.

Response: RCS reviewed manifests in the preparation of this Response, copies of which are attached as Group **Exhibit A**.

- iii) If you have reason to believe that there may be persons able to provide a more detailed or complete response to any Information Request or who may be able to provide additional responsive documents, identify such persons.

Response: RCS has no reason to believe that there is anyone able to provide a more detailed or complete response than itself or the persons identified in response to i), above.

- iv) Did you ever enter into an oral or written contract or otherwise do business with either Chemical Assistance, Inc., Environmental Network, Inc., or Donald Haugen for the purpose

of arranging for the storage, treatment or disposal of waste materials? If you did, please identify the following:

Response: No RCS waste was brought to the Texas Township Drum Site. ENI did work as a consultant to or contractor of RCS to identify proper management for, transport, and dispose of certain waste, in accordance with the law and regulation, as reflected in the attached manifests. There is no written agreement between RCS and ENI and the service was provided by ENI on an as needed basis.

- a) The persons with whom you or such other persons made such arrangements;

Response: RCS identifies the following person in Response:

Mr. James Turner, sales representative, Environmental Networks

- b) The contact information for each person with whom such arrangements were made;

Response: The contact information for Mr. James Turner, is as follows:

phone number: 734 675 1234

Address 2035 Trenton Drive South, Trenton, MI. 48183

- c) Every date on which such arrangements took place;

Response: RCS responds by producing the manifests attached as Group **Exhibit A**.

- d) For each transaction, the nature of the waste material or hazardous substance, including the chemical content, characteristics, physical state (e.g., solid, liquid) and the process for which the substance was used or the process which generated the substance;

Response: RCS responds by producing the waste manifests attached as Group **Exhibit A**.

- e) The owner of the waste materials or hazardous substances so accepted or transported;

Response: It is RCS' understanding that the transporter and disposal location were the owners of the waste when it was in their respective possessions. RCS is the generator of the waste reflected in the manifests attached as **Exhibit A**.

- f) The quantity of the waste materials or hazardous substances involved (weight or volume) in each transaction and the total quantity for all transactions;

Response: RCS responds to the Request concerning the quantity of waste materials or hazardous substances involved by producing the waste manifests attached as Group **Exhibit A**.

- g) All tests, analyses and analytical results concerning the waste materials;

Response: Since the waste was not delivered to the Texas Township Drum Site, this Request is not applicable to RCS.

- h) The person(s) who selected the Site as the place to which the waste materials or hazardous substances were to be transported;

Response: RCS objects to this Request as not being consistent with the authority under CERCLA Section 104(e)(2). Notwithstanding and without waiving the objections, RCS responds that the Site (meaning the Texas Township Drum Site) was not a location where RCS generated waste was delivered, thus, this Request is not applicable to RCS.

- i) The amount paid in connection with each transaction, the method of payment and the identity of the person from whom payment was received;

Response: RCS objects to this Request as not being consistent with the authority under CERCLA Section 104(e)(2). Notwithstanding and without waiving the objections, RCS responds that the Site (meaning the Texas Township Drum Site) was not a location where RCS generated waste was delivered, thus, this Request is not applicable to RCS.

- j) Where the person identified in g. above intended to have such hazardous substances or waste materials transported and all evidence of this intent;

Response: RCS responds that no one was identified in g. above and, if this Request intended to reference h), above, no one was identified in response to h).

- k) Whether the waste materials or hazardous substances involved in each transaction were transshipped through, or were stored or held at, any intermediate site prior to final treatment or disposal;

Response: RCS understands that the waste identified in the manifests attached as Group **Exhibit A** went solely to the facility identified in Group **Exhibit A**.

- l) The final disposition of each of the waste materials or hazardous substances involved in such transactions;

Response: RCS responds by producing the manifests attached as Group **Exhibit A**.

- m) The measures taken by you to determine the actual methods, means and site of treatment or disposal of the waste material and hazardous substances involved in each transaction;

Response: RCS objects to this Request as not being consistent with the authority under CERCLA Section 104(e)(2). Notwithstanding and without waiving the objections, RCS responds that since the waste was not delivered to the Texas Township Drum Site, this Request is not applicable to RCS.

- n) The type and number of containers in which the waste materials or hazardous substances were contained when they were accepted for transport, and subsequently until they were deposited at the Site, and all markings on such containers;

Response: RCS responds that no containers containing waste it generated were delivered to the Texas Township drum Site.

- o) The price paid for (i) transport or (ii) disposal of (iii) or both, of each waste material and hazardous substance;

Response: RCS objects to this Request as not being consistent with the authority under CERCLA Section 104(e)(2). Notwithstanding and without waving the objections, RCS responds that since the waste was not delivered to the Texas Township Drum Site, this Request is not applicable to RCS.

- p) All documents containing information responsive to a)-p) above, or in lieu of identification of all relevant documents, provide copies of all such documents;

Response: RCS has produced documents with this Response evidencing that its waste was not delivered to the Texas Township Drum Site.

- q) All persons with knowledge, information or documents responsive to questions a through p, above.

Response: RCS objects to this Request as not being consistent with the authority under CERCLA Section 104(e)(2). Notwithstanding and without waiving the objections, RCS responds by identifying the persons identified in i) and on the documents produced.

Philip Services Corporation
RCRA Land Disposal Restriction Notification Form

This form is applicable to characteristic wastes (D Codes), listed wastes (F, K, U, and P codes), and Hazardous Debris

Generator: Rochester Hills Schools

US EPA ID #: MIG 000 051 340

Profile #:

Manifest #: 003454234FLE

Line Item:

The wastes identified on this form are subject to the land disposal restrictions of 40 CFR Part 268. The wastes do not meet the treatment standards specified in Part 268, Subpart D or do not meet the applicable prohibition levels specified in 268.32 or RCRA Section 3004(d). Pursuant to 40 CFR 268.7(a), the required information applicable to each waste is identified below. COMPLETE ALL SECTIONS FOR ALL EPA WASTE CODES IN THE WASTE STREAM.

SECTION (1) Treatability Group (Check the appropriate box): Wastewater Nonwastewater
(Wastewaters contain less than 1% filterable solids and less than 1% Total Organic Carbon)

SECTION (2) Characteristic EPA Waste Codes (Check all boxes that apply):

- D001 Ignitable Characteristic Wastes, except for the 261.21(a)(1) High TOC Subcategory
(If this box is checked, Underlying Hazardous Constituents Table must be completed and attached with this shipment.)
- D001 High TOC Ignitable Characteristic Liquids Subcategory based on 40 CFR 261.21(a)(1)- Greater than or equal to 10% total organic carbon. *(Note: This subcategory consists of nonwastewaters only)*
- D002 Corrosive Characteristic Wastes
(If this box is checked, Underlying Hazardous Constituents Table must be completed and attached with this shipment.)
- D003 Reactive Cyanides Subcategory based on 261.23(a)(5)
(If this box is checked, Underlying Hazardous Constituents Table must be completed and attached with this shipment)
- D003 Other Reactives Subcategory based on 261.23(a)(1)
(If this box is checked, Underlying Hazardous Constituents Table must be completed and attached with this shipment.)
- D003 Reactive Sulfides Subcategory based on 261.23(a)(5)
- D003 Water Reactives Subcategory based on 261.23(a)(2),(3),and (4). *(Note: This subcategory consists of nonwastewaters only.)*
- D006 Cadmium containing batteries
- D008 Lead acid batteries

If D004-43 boxes are checked, Underlying Hazardous Constituents Table must be completed and attached with this shipment

- D004 Arsenic D005 Barium D006 Cadmium D007 Chromium
- D008 Lead D009 High mercury inorganic(>260 mg/kg total), including incinerator residue and residues from RMERC
- D009 High Mercury organic (>260mg/kg total), not including Incinerator residue D009 All D009 Wastewaters
- D009 Low mercury (<260 mg/kg total) D010 Selenium D011 Silver
- D012 Endrin D013 Lindane D014 Methylchloroform D015 Toxaphene
- D016 2,4-D D017 2,4,5-TP(Sylvex) D018 Benzene D019 Carbon tetrachloride
- D020 Chlordane D021 Chlorobenzene D022 Chloroform D023 o-Cresol
- D024 m-Cresol D025 p-Cresol D026 Cresols(Total) D027 p-Dichlorobenzene
- D028 1,2-Dichloroethane D029 1,1-Dichloroethylene D030 2,4-Dinitrotoluene D031 Heptachlor
- D032 Hexachlorobenzene D033 Hexachlorobutadiene D034 Hexachloroethane D035 Methyl ethyl ketone
- D036 Nitrobenzene D037 Pentachlorophenol D038 Pyridine D039 Tetrachloroethylene
- D040 Trichloroethylene D041 2,4,5-Trichlorophenol D042 2,4,6-Trichlorophenol D043 Vinyl Chloride

SECTION (3) Listed EPA Waste Codes

SECTION (3A) F039 Multisource leachate

(If this box is checked, Underlying Hazardous Constituents Table must be completed and attached with this shipment)

- F039 Multisource leachate.

Philip Services Corporation

RCRA Land Disposal Restriction Notification Form

This form is applicable to characteristic wastes (D Codes), listed wastes (F, K, U, and P codes), and Hazardous Debris

SECTION (3B) F001-F005 Spent Solvents

Check all F-Code number(s) that apply, and identify all the individual constituents that are present in the waste stream.

Hazardous waste description

F001 Spent halogenated solvents used in degreasing

Regulated Hazardous constituents

- Carbon Tetrachloride
- Methylene chloride
- Tetrachloroethylene
- 1,1,1-Trichloroethane
- Trichloroethylene
- 1,1,2-Trichloro-1,2,2-trifluoroethane
- Trichloromonofluoromethane

F002 Spent halogenated solvents

- Chlorobenzene
- o-Dichlorobenzene
- Methylene chloride
- Tetrachloroethylene
- 1,1,1-Trichloroethane
- 1,1,2-Trichloroethane
- Trichloroethylene
- 1,1,2-Trichloro-1,2,2-trifluoroethane

F003 Spent non-halogenated solvents

- Acetone
- n-Butyl alcohol
- Cyclohexanone
- Ethyl acetate
- Ethyl Benzene
- Ethyl ether
- Methanol
- Methyl isobutyl ketone
- Xylene (total)

F004 Spent non-halogenated solvents

- m-Cresol
- o-Cresol
- p-Cresol
- Nitrobenzene
- Cresol-mixed Isomers(cresylic acid)

F005 Spent non-halogenated solvents

- Benzene
- Carbon disulfide
- 2-Ethoxyethanol
- Isobutyl alcohol
- Methyl ethyl ketone
- 2-Nitropropane
- Pyridine
- Toluene

SECTION (3C) Listed EPA Waste Codes (Other) (list all waste codes other than "F" listed codes not addressed in SECTION (3) above):

EPA Waste Codes	Subcategory						

SECTION (4) Hazardous Debris

(If this box is checked, complete the Hazardous Debris section below.)

Hazardous Debris

The definitions of "debris" and "hazardous debris" are in the 40 CFR 268.2, Per 268.45, hazardous debris must be treated for each "contaminant subject to treatment." To determine these, look up the waste code in 268.40 and list the regulated hazardous constituents for each code. (Check the box that applies)

- This shipment contains hazardous debris that will be treated to comply with the alternative treatment standards of 268.45 (e.g., macroencapsulation or abrasive blasting).
- This shipment contains hazardous debris that will be treated to meet the 268.40 treatment standards for the waste(s) contaminating the debris.

The contaminants subject to treatment for this debris are identified below:

EPA Waste Code	Subcategory	Contaminants Subject to treatment

EPA # MID096963194

CERTIFICATE OF DISPOSAL

This certifies that the waste(s) specified on MANIFEST NUMBER : 056486

FOR GENERATOR: MCGOWAN, D.J.
ROCKAWAY COMMUNITY SCHOOL
CAGE CODE: 00000
ROCKAWAY, MI 48170

AND TRANSPORTER: MCGOWAN, D.J.
TRINITY, INC.
PO BOX 278
EDISON, NJ 08817

has been properly disposed of under the authority of all required and applicable permits and licenses,
to my best knowledge and belief based on my inquiry of individuals immediately responsible for the
waste disposal.

The waste identified above has been handled in compliance with one or more of the
applicable performance standards specified in 40 CFR, part 268, subpart D and all applicable
prohibitions set forth in 40 CFR 268.32 or RCRA section 3004 (d).

List all constituents on both pages of this document that are present in D001 (except for TOC₂ 10%), D002, D003B and D012-D043 waste streams in concentrations above the stated levels. The regulatory levels are in total concentrations, unless noted with an asterisk. (# Explosive, water reactive and other reactive only) (WW = Wastewater; NW = Non-Wastewater). Insert the manifest line identifier (MLI) in the boxed to the left of the constituents. If using this form in association with a profile, place an X in the box next to the appropriate constituent(s).

SUBPART CC AND LAND DISPOSAL RESTRICTION NOTIFICATION FORM

Generator Name ROCHESTER COMMUNITY SCHOOLS Manifest No. _____ Page ____ of ____

This is a wastewater stream.

This is a non-wastewater stream.

NOTE: BOXES CORRESPOND TO MANIFEST LINE ITEM

The waste(s) described above, does not meet the applicable treatment standards in 40 CFR 268 Subpart D and/or the applicable prohibition levels in 40CFR 268.32 or RCRA 3004(c)(California List) as indicated below

SUBPART CC: INDICATE WHETHER WASTES ON THE MANIFEST ARE REGULATED UNDER SUBPART CC FOR CONTAINING VOC'S IN CONCENTRATION LEVELS EQUAL TO OR GREATER THAN 500 PPMW BY ENTERING A "Y" FOR "YES" OR A "N" FOR "NO" AS APPROPRIATE

Based on: Totals Analysis TCLP Analysis Generator Knowledge

Yes / No

5. Is this a EPA Toxic Waste (D004-D043)* as defined in 40 CFR 261.24?
 If D009: Is the total Mercury concentration above 260 ppm?
- * If this is a D001, D002, D003(selected) or D004-D043 does it contain any of the Underlying Hazardous Constituents (UHC) above the Universal Treatment Standards (UTS)?
- If Yes, include a UTS/UHC form with the profile.
6. Is this waste is a Dioxin or Furan per 40 CFR 261.31?
7. a. Is this a Non-Hazardous Waste?
 For Waste Disposed at Chem-Met Services Only:
 b. Is this is a Hazardous Waste by state regulation only?
- c. Is this a Michigan Act 451characteristic hazardous waste.(Copper>100ppm/Zinc>500ppm)?
- d. Is this a Michigan Act 451 listed hazardous waste?

If you answered Yes to any question in Section G, enter the appropriate waste code(s) on the lines below.

Waste Codes: D001 _____

With any hazardous waste profile, please include a land disposal notification

H. BENZENE NESHAP 40 CFR 61, SUBPART FF

Yes / No

If Question 1,2, or 3 is No, proceed to section I.

1. Is this waste stream generated at a facility with a SIC code listed under the NESHAP, or a TSDF that treats NESHAP waste? SIC Code _____ (listed codes: 2800-2899, 2911, or 3312)
2. Does the waste contain >10 % water?
3. Is the Total Annual Benzene quantity from the facility waste greater than 10Mg/Yr (2,200lbs/yr)?
4. What is the total Benzene concentration in your waste' _____ % or _____ ppmw.
(Do not use TCLP results. Acceptable laboratory methods include 8020,8240,8260,602, and 624)
5. What is the TAB quantity for the generator facility? _____ Mg/Year

Based on: Totals Analysis TCLP Analysis Generator Knowledge

Yes / No

5. Is this a EPA Toxic Waste (D004-D043)* as defined in 40 CFR 261.24?
 If D009: Is the total Mercury concentration above 260 ppm?
 * If this is a D001, D002, D003(selected) or D004-D043 does it contain any of the Underlying Hazardous Constituents (UHC) above the Universal Treatment Standards (UTS)?
 If Yes, include a UTS/UHC form with the profile.
6. Is this waste is a Dioxin or Furan per 40 CFR 261.31?
7. a. Is this a Non-Hazardous Waste?
 For Waste Disposed at Chem-Met Services Only:
 b. Is this is a Hazardous Waste by state regulation only?
 c. Is this a Michigan Act 451 characteristic hazardous waste.(Copper>100ppm/Zinc>600ppm)?
 d. Is this a Michigan Act 451 listed hazardous waste?

If you answered Yes to any question in Section G, enter the appropriate waste code(s) on the lines below.

Waste Codes: 0292

With any hazardous waste profile, please include a land disposal notification

H. BENZENE NESHAP 40 CFR 61, SUBPART FF

Yes / No

If Question 1,2, or 3 is No, proceed to section I.

1. Is this waste stream generated at a facility with a SIC code listed under the NESHAP, or a TSDF that treats NESHAP waste? SIC Code _____ (listed codes: 2800-2899, 2911, or 3312)
2. Does the waste contain >10 % water?
3. Is the Total Annual Benzene quantity from the facility waste greater than 10Mg/Yr (2,200lbs/yr)?
4. What is the total Benzene concentration in your waste? _____ % or _____ ppmw.
(Do not use TCLP results. Acceptable laboratory methods include 8020,8240,8260,602, and 624)
5. What is the TAB quantity for the generator facility? _____ Mg/Year

I. PACKAGING / QUANTITY

THIS IS A LEGALLY BINDING CONTRACT. MICHIGAN WASTE SERVICES, L.L.C. ("MWS") AGREES TO PROVIDE, AND CUSTOMER AGREES TO ACCEPT, THE MEDICAL WASTE DISPOSAL SERVICES AT THE RATES AND FREQUENCY OF COLLECTION INDICATED BELOW SUBJECT TO THE TERMS AND CONDITIONS CONTAINED ON THIS PAGE AND ON THE REVERSE SIDE.

FREQUENCY OF SERVICE	
1 On Call (\$2.00 per container surcharge)	THIS COVERS THE WHOLE SCHOOL SYSTEM
1 Regular Basis: Describe: _____	
ON CALL	
1 Types of Containers: Describe: _____	LARGE CORRUGATED UP TO 50 LBS.
1 Cost per container \$ 39.00 EACH	Cost per pound \$ _____
1 Other Specific Terms: _____	_____

CUSTOMER AGREES TO PARTICIPATE IN AND ABIDE BY THE TERMS OF A MERCURY WASTE MANAGEMENT PLAN ("MWMP") REQUIRED BY THE MICHIGAN DEPARTMENT OF ENVIRONMENTAL QUALITY. CUSTOMER SHALL NOT DELIVER TO MWS MATERIALS CONTAINING OR SUSPECTED TO CONTAIN MERCURY MIXED WITH CUSTOMER'S MEDICAL WASTE. ALL MATERIAL CONTAINING OR SUSPECTED TO CONTAIN MERCURY SHALL BE SEGREGATED FROM ALL OTHER MEDICAL WASTE, SEPARATELY CONTAINERIZED AND PROMINENTLY LABELED AS CONTAINING MERCURY IN ACCORDANCE WITH MWS' POLICIES AND MICHIGAN DEPARTMENT OF ENVIRONMENTAL QUALITY REGULATIONS.

Equipment, Materials and Chemicals Commonly Recognized as Known or Suspected Sources of Mercury, Include But Are Not Limited To: Thermometers, Blood pressure devices (sphygmomanometers), Thermostats, Esophageal dilators, Miller Abbot Tubes, Cantor Tubes, Feeding Tubes, Barometers, Fluorescent and high-intensity lamps, laboratory chemicals and stains containing mercury in forms such as thiomersol, phenylmercuric acetate, mercuric oxide, etc.

Customer agrees not to deliver to MWS for pick up any items known or suspected to contain mercury mixed with medical waste. As a means to ensure compliance, Customer agrees to implement an in-house Mercury Reduction Program ("MRP") including but not limited to the following components: An in-house inventory of all mercury usage; identifying products and equipment used in-house that contains mercury; a mercury waste management evaluation, which includes the identification of all essential and non-essential uses of mercury and how mercury usage can be eliminated or reduced; if mercury is to be used, the Customer must prepare a plan for segregating, recycling and/or disposing of mercury (at a minimum, Customer must prepare a plan for preventing mercury from entering its medical wastes), and a mercury spill response plan. MWS shall provide Customer with a written tool demonstrating how to perform an in-house inventory of its mercury usage and disposal practices. Customer will evaluate the potential for reducing the quantity of mercury contained in medical waste delivered to MWS. Customer will provide MWS with a copy of the completed inventory and MRP. MWS shall provide Customer with a package of documents, reports, information, and references which will assist Customer in preparing and implementing an in-house MRP and the preparation of mercury waste segregation and mercury spill response plans and other appropriate information. MWS shall periodically contact Customer to track the status of Customer's MRP, provide annual information updates and provide assistance with Customer's waste management issues.

If MWS determines that Customer has delivered to MWS mercury in its wastes, MWS will work with Customer to identify and eliminate the source of mercury. After the second and third violation, the Michigan Department of Environmental Quality will be notified of the violation and MWS will again work with Customer to identify the source of mercury. After the fourth violation, this Agreement will be terminated and Customer shall be responsible for payment of the termination charges set forth in paragraph 8 on the reverse side hereof.

MWS shall also provide Customer with training in the form of a seminar to assist Customer in understanding the fundamentals of planning and implementing its MRP. Other assistance MWS may provide includes on-site visits by MWS personnel or contractors. Should Customer request additional assistance beyond what MWS can provide, MWS will assist Customer in identifying and contacting other agencies, associations, and consultants that provide education, outreach and consulting services relevant to mercury reduction.

Customer shall identify an individual in the Customer's organization as a mercury coordinator, in the space indicated in this Agreement. The mercury coordinator will be primarily responsible for ascertaining that the Agreement is executed properly (i.e., person to contact should a violation relating to mercury be determined), is or will be the primary contact for all mercury waste management issues and is or will be responsible for Customer's waste management and pollution prevention activities. MWS will not accept medical waste from Customer unless Customer has demonstrated that no mercury is in the medical waste to be picked up by MWS and Customer has implemented its MRP.

Customer should note that the waste stream to be delivered by Customer to MWS for disposal may be subject to audit and inspection or mercury-containing equipment and materials. The Customer assumes responsibility for, and shall pay all costs associated with handling and disposal of any medical waste it has delivered to MWS for pick up, where MWS has determined it contains items known or suspected to contain mercury. Should MWS determine Customer has delivered items known or suspected to contain mercury, MWS shall set that waste aside, contact Customer (both by telephone and in writing) to come and retrieve the suspect waste, and bill Customer for expenses associated with the actions that were undertaken. MWS, its consultants and agents shall not, however, be required to open sealed waste containers and inspect any waste delivered to MWS by Customer for the presence of mercury-containing materials.

THE ADDITIONAL TERMS AND CONDITIONS ON THE REVERSE SIDE ARE PART OF THIS AGREEMENT.

MICHIGAN WASTE SERVICES, L.L.C.

By: *Reese M McFarland*
Don Mayk

Title

Date

1. Customer hereby retains MWS to provide on an exclusive basis and MWS agrees to provide for the transportation and disposal utilizing disposal methods approved by applicable laws and regulations of Customer's regulated or infectious medical waste (as defined in any applicable federal, state, county or municipal laws, regulations and guidelines) which will include pathological, pathogenic, and cytotoxic waste and needles, scalpels, blades and other items commonly referred to as "sharps" (hereinafter collectively referred to as "waste") for a period of three (3) years commencing on the contract start date. The parties agree that the term of this Agreement will be automatically renewed for up to three (3) successive one (1) year periods unless not less than ninety (90) days prior to the expiration of the initial term of this Agreement or any renewal period either party gives the other written notice, via postage prepaid certified or registered mail, of its intention to terminate this Agreement. Customer and MWS agree that this Agreement does not include and MWS will have no obligations with respect to the transportation or disposal of any nuclear or radioactive waste, as defined from time to time by any federal, state or local governmental agency or materials that are toxic, radioactive, corrosive, flammable or contain formaldehyde, mercury or batteries. Title to materials other than waste, shall remain with the Customer. MWS shall be an independent contractor and not an agent, partner, joint venture, employee or employer of Customer.

2. Customer agrees to pay MWS in accordance with its rates outlined on the reverse side of the Agreement and as otherwise set forth in this Agreement. Customer also agrees to pay all charges, taxes, levies or other such costs imposed by any local, state or federal agency or disposal facility on waste to be transported, legally processed and disposed of pursuant to this Agreement. MWS will have the right during the term of this Agreement upon thirty (30) days notice to Customer to change the rates and charges provided in this Agreement as a result of increases of MWS' fuel, labor or disposal costs or taxes. If requested by Customer, special unscheduled pickups will be at MWS' discretion and additional charges may apply. MWS reserves the right to charge assigned pickup days.

3. Customer agrees that all waste to be transported by MWS will be placed by Customer in properly sealed, non-leaking containers. MWS reserves the right to reject for disposal any containers which are leaking or not properly fitted or sealed or over-weight. In such event, MWS will, at its option, provide Customer, at its then prevailing rate, containers for use in repacking such waste, which repacking shall be the sole responsibility of Customer. MWS reserves the right to reject or revoke acceptance of waste prior to disposal. Including waste products or containers that are wet, leaking, damaged, not in compliance with regulations, pose an unreasonable risk, or are rejected by a disposal facility. In addition to the other charges to be paid by Customer pursuant to this Agreement, if MWS, at its option, repacks any of Customer's containers, because such are over-weight or leaking, Customer shall pay MWS an additional repacking charge based on its rates then in effect. MWS reserves the right to charge, and Customer shall pay, additional charges for waste identified by MWS or Customer as chemotherapy waste or pathological waste that requires incineration and that constitutes more than two percent (2%) of total waste picked up from Customer. Customer shall identify all waste which contains chemotherapy waste or pathological waste. If Customer mixes hazardous materials with waste, MWS, at its option, may dispose of such hazardous materials and Customer shall pay all costs associated with legal disposal or MWS may return such materials to Customer and charge Customer a return delivery charge. ALL LINERS MUST BE SEALED AND ALL SHARPS MUST BE PLACED IN A RIGID, PUNCTURE-RESISTANT CONTAINER, AS REQUIRED BY LAW BEFORE PLACING IN DISPOSAL CONTAINERS PROVIDED BY MWS.

4. All amounts payable to MWS by Customer are due within 15 days of the receipt of the invoice. Amounts not paid when due will bear interest at the lesser of 1-1/2% per month or the maximum rate allowed by law. In addition, in the event Customer fails to pay any amounts due hereunder, or otherwise fails to perform this Agreement, Customer agrees to pay MWS' reasonable attorney's fees, court costs and costs of suit.

5. MWS and Customer agree to obtain all necessary permits, and to fully comply with all federal, state and local statutes, laws, regulations and/or guidelines. Customer agrees to sign any and all documents necessary to facilitate disposal provided by MWS. The parties agree that Customer bears full responsibility (including responsibility for accidents, injuries and for the clean up of any accidents or spills) for the waste up to the time MWS takes control of the waste; provided, however, should MWS reject the waste at any time after taking control of the waste due to conditions set forth in this Agreement, Customer shall retain responsibility for the rejected waste. The parties further agree that MWS' responsibility for the waste will terminate (to the maximum extent allowed by law) once the waste has been legally processed and disposed of by MWS or its subcontractors. MWS shall have the right to choose the facility where waste shall be legally processed and disposed.

6. MWS agrees to provide Customer with a record of waste received and legally processed and disposed of by MWS. Such record will be provided on a basis that will enable Customer to fulfill its obligations under any federal, state or local laws or regulations.

7. MWS shall not be considered in breach of its obligations under this Agreement until it has been given written notice of such and has failed to cure same within 30 days following receipt of such notice.

8. In the event Customer terminates or seeks to terminate this Agreement prior to the expiration of the initial term or any renewal term or is otherwise in default hereunder, then MWS shall have the right to declare this Agreement terminated in which event Customer shall pay MWS as liquidated damages, an amount equal to the greater of (a) fifty percent (50%) of the average monthly charges incurred by Customer hereunder prior to such termination times the number of months (including partial months) remaining in the current term of the contract had termination not occurred, or (b) \$500. Such amount shall be payable in full upon the termination date and shall be in addition to any amounts owed to MWS for any period prior to termination. The foregoing remedy of MWS shall be distinct, separate and cumulative and shall not operate to preclude MWS from pursuing any other right or remedy available to it at law or in equity.

9. Customer agrees to indemnify and hold MWS, and its present and future employees, members, managers, officers, directors, agents, subcontractors and assignees harmless from and from all liability, loss, damage or expense, penalties, fines, forfeitures, demands, claims, causes of action, suits, costs and expenses (including reasonable attorney's fees, cost of defense or settlement) which any or all of them may sustain, suffer, incur, be responsible for, or pay, by reason of or arising out of, directly or indirectly (i) the failure of Customer to properly package waste to be transported, legally processed and disposed of by MWS, (ii) the breach by Customer of any of the terms or provisions of this Agreement or any misrepresentations made by Customer under or in connection with this Agreement, or (iii) any negligent or willful act or omission by Customer, its employees or agents in the performance of this Agreement.

10. In the event the Customer has no medical waste for legal processing and disposal for a period of three consecutive months, a service fee of fifteen dollars (\$15.00) shall be assessed.

11. In the event MWS arrives at Customer's facility for a scheduled pick up of waste, and no waste is available, a minimum service fee of twenty-five dollars (\$25.00) shall be assessed.

12. The obligation of the parties to perform under this Agreement (but not the obligation to pay for services or containers already provided) will be suspended and excused to the extent that either party is prevented from performing because of any act beyond its reasonable control, including without limitation, an act of God, earthquake, fire, flood, blizzard or peril of any sort, malicious mischief, riots, strikes, lockouts, war, or any similar cause beyond either party's reasonable control. Any party affected by an event of force majeure will give reasonable notice of the occurrence of such event to the other party.

13. This Agreement, together with the MWMP, constitutes the entire agreement between the parties and no additions or modification of any provision will be binding unless in writing and signed by a duly authorized officer or agent of MWS and Customer. This Agreement shall be binding on the parties and their successors and assigns. The parties agree that the provisions of this Agreement will be construed, governed and enforced in accordance with the laws of the State of Michigan. If any clause, sentence, provision or other portion of this Agreement is or becomes illegal, null, void, or unenforceable for any reason or is held by any court of competent jurisdiction to be so, the rest of this Agreement will remain in full force and effect. MWS reserves the right to assign this Agreement.

Article — (1) Where this rate is dependent on weight, shippers are required to submit to the carrier in writing the agreed or declared value of the property, as losses incurred by the carrier in transporting the property will be limited by the shipper's agreed or declared value of the property in heavily packed liability, unless the shipper has not expressly so agreed.

(2) Where the applicable law does not otherwise provide, a limitation of liability in respect of a value or weight declared by the shipper and the shipper does not renounce the carrier's liability or declare a value, the carrier's liability shall be limited to the extent provided by such provisions. See Rule 17B.

(3) Commodity rates reflect the operator's additional costs or surcharge in handling or carrying dangerous goods. These rates must be so marked and packaged as to ensure safe transportation. See Section 19 of Part 3, Bills of Lading, Freight Bills and Statements of Charges and Section 19 of the Contract Terms and Conditions for a list of such articles.

I hereby declare that the contents of this consignment are fully and accurately described above by the proper shipping name and are classified, packed, marked and labeled as required, and are in all respects in proper condition to be transported according to applicable international and national governmental regulations.

Generator Approval Notification

October 21, 2004

Customer: U S INDUSTRIAL TECHNOLOGIES INC
Fax: (248) 347-0177

JIM TURNER
ROCHESTER COMMUNITY SCHOOLS
6500 SHELDON
ROCHESTER HILLS, MI 48306

This Generator Approval Notification acknowledges the acceptability of waste material(s) into the EQ environmental protection facility identified below and ensures that this facility has the appropriate permit(s) issued by federal and state regulatory agencies to properly transport, treat, and/or dispose of the waste material(s).

EQ FACILITY: EQ Resource Recovery, Inc. (MID060975844)
36345 Van Born Road, Romulus, Michigan 48174

Approval Number: J05904-OTS

Generator EPA ID #: MIG000051351 **Approved Container:** CYB **Expires On:** 10/21/2005

Waste Common Name: Oil Based Paints/Paint Related Material

Comments:

Primary Waste Code: D001

The Approval(s) listed above are based upon characterization information supplied to EQ by the Customer and the generator (if other than the Customer). The Customer is ultimately responsible for the accuracy and completeness of all such information, whether provided by the Customer or the generator. The Customer must notify the EQ Resource Team immediately upon knowledge of any changes to this information. This Approval and all wastes which are transported, delivered, or tendered to EQ under this Approval shall be subject to the attached Standard Terms and Conditions.

The Approval(s) will expire on the date(s) noted. Any new Approvals obtained from EQ on future business will be valid for a period of one (1) year from the date of issuance. Within 60 days of the Approval Expiration Date, you will be notified of the requirements for recertification.

STANDARD TERMS AND CONDITIONS

The Agreement between the Customer and EQ – The Environmental Quality Company and/or its member companies (hereinafter "EQ") related to or associated with Delivered Waste, as herein defined, shall be governed by the following Standard Terms and Conditions in addition to the terms and conditions contained in any Waste Characterization Report, Customer Approval Quote Confirmation, Generator Approval Notification, Notice of Waste Approval Expiration, and/or Credit Agreement associated with such Delivered Waste.

The Customer may use its standard forms (such as purchase orders, acknowledgments of orders, and invoices) to administer its dealings under this Agreement for convenience purposes, but all provisions thereof in conflict with these terms and conditions shall be deemed stricken.

Definitions

The following definitions shall apply for purposes of this Agreement.

"Acceptable Waste" shall mean any hazardous waste, as defined under applicable State or federal law, determined by EQ as acceptable for treatment and/or disposal in accordance with this Agreement.

"Delivered Wastes" shall mean all wastes (i) which are transported, delivered, or tendered to EQ by the Customer; (ii) which the Customer has arranged for the transport, delivery or tender to EQ; or (iii) which are transported, delivered, or tendered to EQ under a Credit Agreement between the Customer and EQ.

"Non-Conforming Wastes" shall mean wastes that (a) are not in accordance in all material respects with the warranties, descriptions, specifications or limitations stated in the Waste Characterization Report and this Agreement, (b) have constituents or components of a type or concentration not specifically identified in the Waste Characterization Report (i) which increase the nature or extent of the hazard and risk undertaken by EQ in treating and/or disposing of the waste, or (ii) for whose treatment and/or disposal a Waste Management Facility is not designed or permitted, or (iii) which increase the cost of treatment and/or disposal of waste beyond that specified in EQ's price quote; or (c) are not properly packaged, labeled, described, or placarded, or otherwise not in compliance with United States Department of Transportation and United States Environmental Protection Agency regulations.

Control of Operations

EQ shall have sole control over all aspects of the operation of any treatment and/or disposal facility of EQ receiving Delivered Wastes under this Agreement (hereinafter, "Waste Management Facility"), including, without limitation, maintaining EQ's desired volume of Acceptable Wastes being delivered to any Waste Management Facility by the Customer or any other person or entity.

Identification of Waste

For each waste material to be transported, delivered, or tendered to EQ under this Agreement, the Customer shall provide, or cause to be provided, to EQ a representative sample of the waste material and a completed Waste Characterization Report containing a physical and chemical description or analysis of such waste material, which description shall conform with any and all guidelines for waste acceptance provided by EQ. On the basis of EQ's analysis of such representative sample of the waste material and such Waste Characterization Report, EQ will determine whether such wastes are Acceptable Wastes. EQ does not make any guarantee that it will handle any waste material or any particular quantity or type of waste material, and EQ reserves the right to decline to transport, treat and/or dispose of waste material. The Customer shall promptly furnish to EQ any information regarding known, suspected or planned changes in the composition of the waste material. Further, the Customer shall promptly inform EQ of any change in the characteristic or condition of the waste material which becomes known to the Customer subsequent to the date of the Waste Characterization Report.

Non-Conforming Wastes

In the event that EQ at any time discovers that any Delivered Waste is Non-Conforming Waste, EQ may reject or revoke its acceptance of the Non-Conforming Waste. The Customer shall have seven (7) days to direct an alternative lawful manner of disposition of the waste, unless it is necessary by reason of law or otherwise to move the Non-Conforming Waste prior to expiration of the seven (7) day period. If the Customer does not direct an alternative disposal, at its option, EQ may return any such Non-Conforming Wastes to the Customer, and the Customer shall pay or reimburse EQ for all costs and expenses incurred by EQ in connection with the receipt, handling, sampling, analyses, transportation and return to the Customer of such Non-Conforming Wastes. If it is impossible or impractical for EQ to return the Non-Conforming Waste to the Customer, the Customer shall reimburse EQ for all costs, of any type or nature whatsoever, incurred by EQ, solely because such Delivered Waste was Non-Conforming Waste (including, but not limited to, all costs associated with any remedial steps necessary, due to the nature of the Non-Conforming Waste, in connection with material with which the Non-Conforming Waste may have been commingled and all expenses and charges for analyzing, handling, locating, preparing for transporting, storing and disposing of any Non-Conforming Waste).

Customer Warranty - Acceptable Wastes

All Delivered Wastes shall be Acceptable Wastes and shall conform in all material respects to the description and specifications contained in the Waste Characterization Report. The information set forth in the Waste Characterization Report or any manifest, placard or label associated with any Delivered Wastes, or otherwise represented by the Customer or the generator (if other than the Customer) to EQ, is and shall be true, accurate and complete as of the date of receipt of the involved waste by EQ.

Customer Warranty - Title to Wastes

Either the Customer or the generator (if other than the Customer) shall hold clear title, free of any all liens, claims, encumbrances, and charges to Delivered Waste until such waste is accepted by EQ.

Customer Warranty - Compliance with Laws

The Customer shall comply with all applicable federal, state and local environmental statutes, regulations, and other governmental requirements, as well as directives issued by EQ from time to time, governing the transportation, treatment and/or disposal of Acceptable Wastes, including, but not limited to, all packaging, manifesting, containerization, placarding and labeling requirements.

Customer Warranty - Updating Information

If the Customer receives information that Delivered Waste or other hazardous waste described in the Waste Characterization Report, or some component of such waste, presents or may present a hazard or risk to persons, property or the environment which was not disclosed to EQ, or if the Customer or generator (if other than the Customer) has changed the process by which such waste results, the Customer shall promptly report such information to EQ in writing.

Customer Indemnity

The Customer shall indemnify, defend and hold harmless EQ, and its affiliated or related companies, and all of their respective present or future officers, directors, shareholders, employees and agents from and against any and all losses, damages, liabilities, penalties, fines, forfeitures, demands, claims, causes of action, suits, costs and expenses (including, but not limited to, reasonable costs of defense, settlement, and reasonable attorneys' fees), which may be asserted against any or all of them by any person or any governmental agency, or which any or all of them may hereafter suffer, incur, be responsible for or pay out, as a result of or in connection with bodily injuries (including, but not limited to, death, sickness, disease and emotional or mental distress) to any person (including EQ's employees), damage (including, but not limited to, loss of use) to any property (public or private), or any requirements to conduct or incur expense for investigative, removal or remedial expenses in connection with contamination of or adverse effect on the environment, or any violation or alleged violation of any statutes, ordinances, orders, rules or regulations of any governmental entity or agency, caused or arising out of (i) a breach of this Agreement by the Customer, (ii) the failure of any warranty of the Customer to be true, accurate and complete, or (iii) any willful or negligent act or omission of the Customer, or its employees or agents in connection with the performance of this Agreement.

Force Majeure

EQ shall not be liable for any failure to accept, receive, handle, treat, and/or dispose of Delivered Waste due to an act of God, fire, casualty, flood, war, strike, lockout, labor trouble, failure of public utilities, equipment failure, facility shutdown, injunction, accident, epidemic, riot, insurrection, destruction of operation or transportation facilities, the inability to procure materials, equipment, or sufficient personnel or energy in order to meet operational needs without the necessity of allocation, the failure or inability to obtain any governmental approvals or to meet Environmental Requirements (including, but not limited to voluntary or involuntary compliance with any act, exercise, assertion, or requirement of any governmental authority) which may temporarily or permanently prohibit operations of EQ, the Customer, or the Generator, or any other circumstances beyond the control of EQ which prevents or delays performance of any of its obligations under this Agreement.

Governing Laws

This Agreement shall in all respects be governed by and shall be construed in accordance with the laws of the State of Michigan applied to contracts executed and performed wholly within such state.

THE ENVIRONMENTAL QUALITY COMPANY [®]

Generator Approval Notification

April 28, 2005

Customer: U S INDUSTRIAL TECHNOLOGIES INC
Fax: (248) 347-0177

JIM TURNER
ROCHESTER COMMUNITY SCHOOLS
6500 SHELDON
ROCHESTER HILLS, MI 48306

This Generator Approval Notification acknowledges the acceptability of waste material(s) into the EQ environmental protection facility identified below and ensures that this facility has the appropriate permit(s) issued by federal and state regulatory agencies to properly transport, treat, and/or dispose of the waste material(s).

EQ FACILITY: EQ Resource Recovery, Inc. (MID060975844)
36345 Van Born Road, Romulus, Michigan 48174

Approval Number: D48805-OTS

Generator EPA ID: MIG000051351

Expires On: 4/28/2006

Waste Common Name: propane cylinders

Comments:

Primary Waste Code: NONE

The Approval(s) listed above are based upon characterization information supplied to EQ by the Customer and the generator (if other than the Customer). The Customer is ultimately responsible for the accuracy and completeness of all such information, whether provided by the Customer or the generator. The Customer must notify the EQ Resource Team immediately upon knowledge of any changes to this information. This Approval and all wastes which are transported, delivered, or tendered to EQ under this Approval shall be subject to the attached Standard Terms and Conditions.

The Approval(s) will expire on the date(s) noted. Any new Approvals obtained from EQ on future business will be valid for a period of one (1) year from the date of issuance. Within 60 days of the Approval Expiration Date, you will be notified of the requirements for recertification.

ROCHESTER COMMUNITY SCHOOLS
MAINTENANCE AND GROUNDS
GARY SENICAL, SUPERVISOR

October 18, 2000

Waste Management Division
Michigan Department of Environmental Quality
PO Box 30038
Lansing MI 48909-7538

Enclosed you will find two (2) Uniform Hazardous Waste Manifest forms from 10-17-00.

Also, included are four (4) UHWM forms from July 11, 2000 that we were just informed yesterday that needed to be returned to your office.

Thank you.

Sincerely,

A handwritten signature in black ink, appearing to read "Gary Senical".

SUBPART CC AND LAND DISPOSAL RESTRICTION NOTIFICATION FORM

Generator Name Rochester Community Schools Manifest No. 70834 Page _____ of _____
 This is a wastewater stream
 This is a non-wastewater stream.

NOTE: BOXES CORRESPOND TO MANIFEST LINE ITEM

The waste(s) described above, does not meet the applicable treatment standards in 40 CFR 268 Subpart D.

SUBPART CC: INDICATE WHETHER WASTES ON THE MANIFEST ARE REGULATED UNDER SUBPART CC FOR CONTAINING VOC'S IN CONCENTRATION LEVELS EQUAL TO OR GREATER THAN 600 PPMW BY ENTERING A "Y" FOR "YES" OR "N" FOR "NO" AS APPROPRIATE.

A. CHARACTERISTIC WASTE

M L I	CODE	SUBCATEGORY/CONSTITUENTS
A	D001*	Ignitable Wastes (TOC>10%)
A	D001*	Ignitable Wastes (TOC<10%)
A	D002*	Corrosive Wastes
A	D003*	Reactive Sulfides based on 261.23(a)(5)
A	D003*	Explosives based on 261.23(a) (6),(7),(8)
A	D003*	Unexploded ordinance/explosive
A	D003*	Other Reactive based on 261.23(a)(1)
A	D003*	Water Reactive based on 261.23(a) (2),(3),(4)
A	D003*	Reactive Cyanides based on 261.23(a) (5)
B	D004*	Arsenic
B	D005*	Barium
B	D006*	Cadmium
B	D006*	Cadmium Containing Battenes
B	D007*	Chromium
B	D008*	Lead
B	D008*	Lead Acid Battenes
B	D009*	High Mercury-Organic
B	D009*	High Mercury-Inorganic
B	D009*	Low Mercury
B	D009*	Mercury Wastewater
B	D010*	Selenium
B	D011*	Silver
B	D012*	Endrin
B	D013*	Lindane
B	D014*	Methoxychlor
B	D015*	Toxaphene
B	D016*	2,4-D
B	D017*	2,4,5-TP (Silvex)
B	D018*	Benzene
B	D019*	Carbon Tetrachlone
B	D020*	Chlordane
B	D021*	Chlorobenzene
B	D022*	Chloroform
B	D023*	o-Cresol
B	D024*	m-Cresol
B	D025*	p-Cresol
B	D026*	Cresol (total)
B	D027*	p-Dichlorobenzene
B	D028*	1,2-Dichloroethane
B	D029*	1,1-Dichloroethylene
B	D030*	2,4-Dinitrotoluene
B	D031*	Heptachlor
B	D032*	Hexachlorobenzene
B	D033*	Hexachlorobutadiene

UNIVERSAL TREATMENT STANDARDS(UTS)/UNDERLYING HAZARDOUS CONSTITUENTS(UHC) FORM

Generator Name: Rochester community Schools

Manifest No. 70835

Page: 1 of 2

List all constituents on both pages of this document that are present in D001(except for TOC \geq 10%), D002, D003# and D004-D043 waste streams in concentrations above the stated levels. The regulatory levels are in total concentrations, unless noted with an asterisk. (# Explosive, water reactive and other reactive only) (WW = Wastewater; NWW = Non-Wastewater). Insert the manifest line identifier (MLI) in the boxed to the left of the constituents. If using this form in association with a profile, place an X in the box next to the appropriate constituent(s).

Generator Name: ROCHESTER COMMUNITY SCHOOLSManifest No: MI 7770832Page: 1 of 2

List all constituents on both pages of this document that are present in D001(except for TOC \geq 10%), D002, D003# and D012-D043 waste streams in concentrations above the stated levels. The regulatory levels are in total concentrations, unless noted with an asterisk. (# Explosive, water reactive and other reactive only) (WW = Wastewater, NWW = Non-Wastewater). Insert the manifest line identifier (MLI) in the boxed to the left of the constituents. If using this form in association with a profile, place an X in the box next to the appropriate constituent(s).

Philip Services Corporation
RCRA Land Disposal Restriction Notification Form

Page 1 of 2

This form is applicable to characteristic wastes (D Codes), listed wastes (F,K,U and P codes), and Hazardous Debris.

Generator: Rochester Community Schools

U. S. EPA I. D. #: MIG 000 QJY 351

Profile#

Manifest#: MI 9771987

& Line Item: 9

The wastes identified on this form are subject to the land disposal restrictions of 40 CFR Part 268. The wastes do not meet the treatment standards specified in Part 268, Subpart D or do not meet the applicable prohibition levels specified in 268.32 or RCRA Section 3004(d). Pursuant to 40 CFR 268.7(a), the required information applicable to each waste is identified below. COMPLETE ALL SECTIONS FOR ALL EPA WASTE CODES IN THE WASTE STREAM.

SECTION (1) Treatability Group (check the appropriate box): Wastewater Nonwastewater
(Wastewaters contain less than 1% filterable solids and less than 1% Total Organic Carbon)

SECTION (2) Characteristic EPA Waste Codes (check all boxes that apply):

- D001 Ignitable Characteristic Wastes, except for the 261.21(a)(1) High TOC Subcategory.
(If this box is checked, Underlying Hazardous Constituents Table must be completed and attached with this shipment.)
- D001 High TOC Ignitable Characteristic Liquids Subcategory based on 40 CFR 261.21(a)(1)-
 Greater than or equal to 10% total organic carbon. (Note: This subcategory consists of nonwastewaters only.)
- D002 Corrosive Characteristic Wastes.
(If this box is checked, Underlying Hazardous Constituents Table must be completed and attached with this shipment.)
- D003 Reactive Cyanides Subcategory based on 261.23(a)(5)
(If this box is checked, Underlying Hazardous Constituents Table must be completed and attached with this shipment.)
- D003 Other Reactives Subcategory based on 261.23(a)(1)
(If this box is checked, Underlying Hazardous Constituents Table must be completed and attached with this shipment.)
- D003 Reactive Sulfides Subcategory based on 261.23(a)(5)
- D003 Water Reactives Subcategory based on 261.23(a)(2),(3),and (4). (Note: This subcategory consists of nonwastewaters only.)
- D006 Cadmium containing batteries
- D008 Lead acid batteries

If D004-43 boxes are checked, Underlying Hazardous Constituents Table must be completed and attached with this shipment.

SECTION (3C) F039 Multisource leachate

(If this box is checked, *Underlying Hazardous Constituents Table* must be completed and attached with this shipment.)

- F039 Multisource leachate.

SECTION (4) Hazardous Debris

- Hazardous Debris (If this box is checked, complete the Hazardous Debris section below.)

The definitions of "debris" and "hazardous debris" are in the 40 CFR 268.2, Per 268.45, hazardous debris must be treated for each "contaminant subject to treatment." To determine these, look up the waste code in 268.40 and list the regulated hazardous constituents for each code. (Check the box that applies)

- This shipment contains hazardous debris that will be treated to comply with the alternative treatment standards of 268.45 (e. g., macroencapsulation or abrasive blasting).
- This shipment contains hazardous debris that will be treated to meet the 268.40 treatment standards for the waste(s) contaminating the debris.

The contaminants subject to treatment for this debris are identified below:

EPA Waste Code	Subcategory	Contaminants subject to treatment

Generator Approval Notification

October 5, 2006

Customer: U S INDUSTRIAL TECHNOLOGIES INC
Fax: (734) 462-4114

JIM TURNER
ROCHESTER COMMUNITY SCHOOLS
6500 SHELDON
ROCHESTER HILLS, MI 48306

This Generator Approval Notification acknowledges the acceptability of waste material(s) into the EQ environmental protection facility identified below and ensures that this facility has the appropriate permit(s) issued by federal and state regulatory agencies to properly transport, treat, and/or dispose of the waste material(s).

EQ FACILITY: EQ Detroit, Inc. (MID980991566)
1923 Frederick, Detroit, MI 48211

Approval Number: I062174DET

Generator EPA ID: MIG000051351
Waste Common Name: Aerosol Cans
Comments:

Expires On: 9/29/2007

Primary Waste Code: D001

The Approval(s) listed above are based upon characterization information supplied to EQ by the Customer and the generator (if other than the Customer). The Customer is ultimately responsible for the accuracy and completeness of all such information, whether provided by the Customer or the generator. The Customer must notify the EQ Resource Team immediately upon knowledge of any changes to this information. This Approval and all wastes which are transported, delivered, or tendered to EQ under this Approval shall be subject to the attached Standard Terms and Conditions.

The Approval(s) will expire on the date(s) noted. Any new Approvals obtained from EQ on future business will be valid for a period of one (1) year from the date of issuance. Within 60 days of the Approval Expiration Date, you will be notified of the requirements for recertification.

Please print or type. (Form designed for use on elite (12-pitch) typewriter)

Philip Services Corporation
RCRA Land Disposal Restriction Notification Form

This form is applicable to characteristic wastes (D Codes), listed wastes (F, K, U, and P codes), and Hazardous Debris

Generator: Port Huron Community Schools US EPA ID #: M16-000 051 351
Profile #: 4D 69784, Manifest # 001048476FLE Line Item: 9/1

The wastes identified on this form are subject to the land disposal restrictions of 40 CFR Part 268. The wastes do not meet the treatment standards specified in Part 268, Subpart D or do not meet the applicable prohibition levels specified in 268.32 or RCRA Section 3004(d). Pursuant to 40 CFR 268.7(a), the required information applicable to each waste is identified below. COMPLETE ALL SECTIONS FOR ALL EPA WASTE CODES IN THE WASTE STREAM.

SECTION (1) Treatability Group (Check the appropriate box): Wastewater
(Wastewaters contain less than 1% filterable solids and less than 1% Total Organic Carbon)

Nonwastewater

SECTION (2) Characteristic EPA Waste Codes (Check all boxes that apply):

D001 Ignitable Characteristic Wastes, except for the 261.21(a)(1) High TOC Subcategory
(If this box is checked, Underlying Hazardous Constituents Table must be completed and attached with this shipment.)

D001 High TOC Ignitable Characteristic Liquids Subcategory based on 40 CFR 261.21(a)(1)- Greater than or equal to 10% total organic carbon
(Note. This subcategory consists of nonwastewaters only.)

D002 Corrosive Characteristic Wastes
(If this box is checked, Underlying Hazardous Constituents Table must be completed and attached with this shipment.)

D003 Reactive Cyanides Subcategory based on 261.23(a)(5)
(If this box is checked, Underlying Hazardous Constituents Table must be completed and attached with this shipment.)

D003 Other Reactives Subcategory based on 261.23(a)(1)
(If this box is checked, Underlying Hazardous Constituents Table must be completed and attached with this shipment.)

D003 Reactive Sulfides Subcategory based on 261.23(a)(5)

D003 Water Reactives Subcategory based on 261.23(a)(2),(3),and (4). (Note. This subcategory consists of nonwastewaters only.)

D006 Cadmium containing batteries

D008 Lead acid batteries

If D004-43 boxes are checked, Underlying Hazardous Constituents Table must be completed and attached with this shipment.

SECTION (3) Listed EPA Waste Codes

SECTION (3A) F039 Multisource leachate

(If this box is checked, Underlying Hazardous Constituents Table must be completed and attached with this shipment.)

F039 Multisource leachate.

Philip Services Corporation
RCRA Land Disposal Restriction Notification Form

This form is applicable to characteristic wastes (D Codes), listed wastes (F, K, U, and P codes), and Hazardous Debris.

SECTION (3B) F001-F005 Spent Solvents

Check all F-Code number(s) that apply, and identify all the individual constituents that are present in the waste stream.

Hazardous waste description

F001 Spent halogenated solvents used in degreasing

Regulated Hazardous constituents

- Carbon Tetrachloride
- Methylene chloride
- Tetrachloroethylene
- 1,1,1-Trichloroethane
- Trichloroethylene
- 1,1,2-Trichloro-1,2,2-trifluoroethane
- Trichloromonofluoromethane

F002 Spent halogenated solvents

- Chlorobenzene
- o-Dichlorobenzene
- Methylene chloride
- Tetrachloroethylene
- 1,1,1-Trichloroethane
- 1,1,2-Trichloroethane
- Trichloroethylene
- 1,1,2-Trichloro-1,2,2-trifluoroethane

F003 Spent non-halogenated solvents

- Acetone
- n-Butyl alcohol
- Cyclohexanone
- Ethyl acetate
- Ethyl Benzene
- Ethyl ether
- Methanol
- Xylene (total)

F004 Spent non-halogenated solvents

- m-Cresol
 - o-Cresol
 - p-Cresol
 - Nitrobenzene
- Benzene
 - Isobutyl alcohol
 - 2-Ethoxyethanol
 - 2-Nitropropane
 - Pyridine
 - Toluene

SECTION (3C) Listed EPA Waste Codes (Other) (list all waste codes other than "F" listed codes not addressed in SECTION (3) above).

EPA Waste Codes	Subcategory						

SECTION (4) Hazardous Debris

(If this box is checked, complete the Hazardous Debris section below.)

Hazardous Debris

The definitions of "debris" and "hazardous debris" are in the 40 CFR 268.2, Per 268.45, hazardous debris must be treated for each "contaminant subject to treatment." To determine these, look up the waste code in 268.40 and list the regulated hazardous constituents for each code. (Check the box that applies)

- This shipment contains hazardous debris that will be treated to comply with the alternative treatment standards of 268.45 (e.g., macroencapsulation or abrasive blasting).
- This shipment contains hazardous debris that will be treated to meet the 268.40 treatment standards for the waste(s) contaminating the debris.

The contaminants subject to treatment for this debris are identified below.

EPA Waste Code	Subcategory	Contaminants Subject to treatment

This Generator Approval-Notification acknowledges the acceptability of waste material(s) into the EQ environmental protection facility identified below and ensures that this facility has the appropriate permit(s) issued by federal and state regulatory agencies to properly transport, treat, and/or dispose of the waste material(s).

EQ FACILITY: EQ Detroit, Inc. (MID980991566)
1923 Frederick, Detroit, MI 48211

Approval Number: FF06974

Generator EPA ID: MIG000051351

Expires On: 05/23/2009

Waste Common Name: BOILER CLOSED TREATMENT

Comments:

Primary Waste Code: D002

Secondary Waste Codes:

The Approval(s) listed above are based upon characterization information supplied to EQ by the Customer and the generator (if other than the Customer). The Customer is ultimately responsible for the accuracy and completeness of all such information, whether provided by the Customer or the generator. The Customer must notify the EQ Resource Team immediately upon knowledge of any changes to this information. This Approval and all wastes which are transported, delivered, or tendered to EQ under this Approval shall be subject to the attached Standard Terms and Conditions.

The Approval(s) will expire on the date(s) noted. Any new Approvals obtained from EQ on future business will be valid for a period of one (1) year from the date of issuance. Within 60 days of the Approval Expiration Date, you will be notified of the requirements for recertification.

Instructions

Column 1: Identify all U.S. EPA hazardous waste codes that apply to this waste shipment.

Column 2: Choose the appropriate treatability group, Non-Wastewater (NWW) or Wastewater (WW).

Column 3: Enter the appropriate Subcategory, if applicable, and also enter "Contaminated Soil" or "Debris" if the waste will be treated using one of the alternative treatment technologies provided by 268.49(c) - soil, or 268.45 - debris.

Column 4: Enter the letter of the appropriate paragraph from pages 1-2 of this form.

Column 5: For F001 - F005, F039, D001 - D043, Debris and Contaminated Soil: please enter the Reference Number(s) for any constituents in your waste stream subject to treatment. The Reference Number(s) can be found in the EQ Resource Guide, LDR/UHC Constituent Table.

Manifest Line Item	U.S. EPA Hazardous Waste Code (s)	NWW or WW	Subcategory	How Must the Waste be Managed?	Reference Number(s) of Hazardous Constituents contained in the waste. Complete for F001-F005, F039, D001-D043, Soil and Debris wastes.

LAND DISPOSAL RESTRICTED AND PROHIBITED WASTE
NOTICE AND CERTIFICATION

The wastes identified on manifest # 00104847476 and bearing the EPA Hazardous Waste Code(s) listed below are subject to the land restrictions of 40 CFR Part 268. The required information applicable to each waste is identified below:

The wastes do not meet the treatment standards specified in Part 268 Subpart D or do not meet the prohibitions specified in 268.32 or RCRA Section 3004(d).

The wastes comply with the treatment standards specified in Part 268 Subpart D and all applicable prohibitions set forth in 268.32 or RCRA Section 3004(d).

Manifest Line Item #	Hazardous Waste Code(s)	Treatability Group		Subcategory (If applicable or "Debris")	Underlying Hazardous Constituents

PUBLIC SERVICES CORPORATION
RCRA Land Disposal Restriction Notification Form

This form is applicable to characteristic wastes (D Codes), listed wastes (F, K, U, and P codes), and Hazardous Debris.

Generator: Port Huron Community Schools US EPA ID #: M16-000 057-351
Profile #: 4D169784 Manifest #: 001052051EFC Line Item: 911

The wastes identified on this form are subject to the land disposal restrictions of 40 CFR Part 268. The wastes do not meet the treatment standards specified in Part 268, Subpart D or do not meet the applicable prohibition levels specified in 268.32 or RCRA Section 3004(d). Pursuant to 40 CFR 268.7(a), the required information applicable to each waste is identified below. COMPLETE ALL SECTIONS FOR ALL EPA WASTE CODES IN THE WASTE STREAM.

SECTION (1) Treatability Group (Check the appropriate box): Wastewater Nonwastewater
(Wastewaters contain less than 1% filterable solids and less than 1% Total Organic Carbon)

SECTION (2) Characteristic EPA Waste Codes (Check all boxes that apply):

- D001 Ignitable Characteristic Wastes, except for the 261.21(a)(1) High TOC Subcategory
(If this box is checked, Underlying Hazardous Constituents Table must be completed and attached with this shipment.)
- D001 High TOC Ignitable Characteristic Liquids Subcategory based on 40 CFR 261.21(a)(1)- Greater than or equal to 10% total organic carbon. (Note. This subcategory consists of nonwastewaters only.)
- D002 Corrosive Characteristic Wastes
(If this box is checked, Underlying Hazardous Constituents Table must be completed and attached with this shipment.)
- D003 Reactive Cyanides Subcategory based on 261.23(a)(5)
(If this box is checked, Underlying Hazardous Constituents Table must be completed and attached with this shipment.)
- D003 Other Reactives Subcategory based on 261.23(a)(1)
(If this box is checked, Underlying Hazardous Constituents Table must be completed and attached with this shipment.)
- D003 Reactive Sulfides Subcategory based on 261.23(a)(5)
- D003 Water Reactives Subcategory based on 261.23(a)(2),(3),and (4). (Note. This subcategory consists of nonwastewaters only.)
- D006 Cadmium containing batteries
- D008 Lead acid batteries

If D004-43 boxes are checked, Underlying Hazardous Constituents Table must be completed and attached with this shipment

- D004 Arsenic D005 Barium D006 Cadmium D007 Chromium
- D008 Lead D009 High mercury inorganic(>260 mg/kg total), including incinerator residue and residues from RMERC
- D009 High Mercury organic (>260mg/kg total), not including incinerator residue D009 All D009 Wastewaters
- D009 Low mercury (<260 mg/kg total) D010 Selenium D011 Silver
- D012 Endrin D013 Lindane D014 Methoxychlor D015 Toxaphene
- D016 2,4-D D017 2,4,5-TP(Sylvek) D018 Benzene D019 Carbon tetrachloride
- D020 Chlordane D021 Chlorobenzene D022 Chloroform D023 o-Cresol
- D024 m-Cresol D025 p-Cresol D026 Cresols(Total) D027 p-Dichlorobenzene
- D028 1,2-Dichloroethane D029 1,1-Dichloroethylene D030 2,4-Dinitrotoluene D031 Heptachlor
- D032 Hexachlorobenzene D033 Hexachlorobutadiene D034 Hexachloroethane D035 Methyl ethyl ketone
- D036 Nitrobenzene D037 Pentachlorophenol D038 Pyridine D039 Tetrachloroethylene
- D040 Trichloroethylene D041 2,4,5-Trichlorophenol D042 2,4,6-Trichlorophenol D043 Vinyl Chloride

SECTION (3) Listed EPA Waste Codes

SECTION (3A) F039 Multisource leachate
(This box is checked, Underlying Hazardous Constituents Table must be completed and attached with this shipment.)

F039 Multisource leachate.

Pump Services Corporation
RCRA Land Disposal Restriction Notification Form

This form is applicable to characteristic wastes (D Codes), listed wastes (F, K, U, and P codes), and Hazardous Debris.

SECTION (3B) F001-F005 Spent Solvents

Check all F-Code number(s) that apply, and identify all the individual constituents that are present in the waste stream.

Hazardous waste description

	Regulated Hazardous constituents
<input type="checkbox"/> F001 Spent halogenated solvents used in degreasing	<input type="checkbox"/> Carbon Tetrachloride <input type="checkbox"/> Methylene chloride <input type="checkbox"/> Tetrachloroethylene <input type="checkbox"/> 1,1,1-Trichloroethane <input type="checkbox"/> Trichloroethylene <input type="checkbox"/> 1,1,2-Trichloro-1,2,2-trifluoroethane <input type="checkbox"/> Trichloromonofluoromethane
<input type="checkbox"/> F002 Spent halogenated solvents	<input type="checkbox"/> Chlorobenzene <input type="checkbox"/> o-Dichlorobenzene <input type="checkbox"/> Methylene chloride <input type="checkbox"/> Tetrachloroethylene <input type="checkbox"/> 1,1,1-Trichloroethane <input type="checkbox"/> 1,1,2-Trichloroethane <input type="checkbox"/> Trichloroethylene <input type="checkbox"/> 1,1,2-Trichloro-1,2,2-trifluoroethane
<input type="checkbox"/> F003 Spent non-halogenated solvents	<input type="checkbox"/> Acetone <input type="checkbox"/> n-Butyl alcohol <input type="checkbox"/> Cyclohexanone <input type="checkbox"/> Ethyl acetate <input type="checkbox"/> Ethyl Benzene <input type="checkbox"/> Ethyl ether <input type="checkbox"/> Methanol <input type="checkbox"/> Methyl Isobutyl ketone <input type="checkbox"/> Xylene (total)
<input type="checkbox"/> F004 Spent non-halogenated solvents	<input type="checkbox"/> m-Cresol <input type="checkbox"/> o-Cresol <input type="checkbox"/> p-Cresol <input type="checkbox"/> Cresol-mixed Isomers(cresylic acid) <input type="checkbox"/> Nitrobenzene
<input type="checkbox"/> F005 Spent non-halogenated solvents	<input type="checkbox"/> Benzene <input type="checkbox"/> Carbon disulfide <input type="checkbox"/> 2-Ethoxyethanol <input type="checkbox"/> Isobutyl alcohol <input type="checkbox"/> Methyl ethyl ketone <input type="checkbox"/> 2-Nitropropane <input type="checkbox"/> Pyridine <input type="checkbox"/> Toluene

SECTION (3C) Listed EPA Waste Codes (Other) (list all waste codes other than "F" listed codes not addressed in SECTION (3) above):

EPA Waste Codes	Subcategory						

SECTION (4) Hazardous Debris

(If this box is checked, complete the Hazardous Debris section below.)

- Hazardous Debris

The definitions of "debris" and "hazardous debris" are in the 40 CFR 268.2, Per 268.45, hazardous debris must be treated for each "contaminant subject to treatment." To determine these, look up the waste code in 268.40 and list the regulated hazardous constituents for each code (Check the box that applies)

- This shipment contains hazardous debris that will be treated to comply with the alternative treatment standards of 268.45 (e.g., macroencapsulation or abrasive blasting).
 This shipment contains hazardous debris that will be treated to meet the 268.40 treatment standards for the waste(s) contaminating the debris.

The contaminants subject to treatment for this debris are identified below:

EPA Waste Code	Subcategory	Contaminants Subject to treatment

Philip Services Corporation
RCRA Land Disposal Restriction Notification Form

This form is applicable to characteristic wastes (D Codes), listed wastes (F, K, U, and P codes), and Hazardous Debris.

Generator: Rochester Community Schools US EPA ID #: MIG000061351
Profile #: 4069784 Manifest #: 002966401 FLE Line Item: 91

The wastes identified on this form are subject to the land disposal restrictions of 40 CFR Part 268. The wastes do not meet the treatment standards specified in Part 268, Subpart D or do not meet the applicable prohibition levels specified in 268.32 or RCRA Section 3004(d). Pursuant to 40 CFR 268.7(a), the required information applicable to each waste is identified below. COMPLETE ALL SECTIONS FOR ALL EP WASTE CODES IN THE WASTE STREAM

SECTION (1) Treatability Group (Check the appropriate box). Wastewater Nonwastewater
(Wastewaters contain less than 1% filterable solids and less than 1% Total Organic Carbon)

SECTION (2) Characteristic EPA Waste Codes (Check all boxes that apply).

- D001 Ignitable Characteristic Wastes, except for the 261.21(a)(1) High TOC Subcategory
(If this box is checked, Underlying Hazardous Constituents Table must be completed and attached with this shipment.)
- D001 High TOC Ignitable Characteristic Liquids Subcategory based on 40 CFR 261.21(a)(1)- Greater than or equal to 10% total organic carbon. *(Note: This subcategory consists of nonwastewaters only.)*
- D002 Corrosive Characteristic Wastes
(If this box is checked, Underlying Hazardous Constituents Table must be completed and attached with this shipment.)
- D003: Reactive Cyanides-Subcategory-based-on-261.23(a)(5)-
(If this box is checked, Underlying Hazardous Constituents Table must be completed and attached with this shipment.)
- D003 Other Reactives Subcategory based on 261.23(a)(1)
(If this box is checked, Underlying Hazardous Constituents Table must be completed and attached with this shipment.)
- D003 Reactive Sulfides Subcategory based on 261.23(a)(5)
- D003 Water Reactives Subcategory based on 261.23(a)(2),(3),and (4). *(Note: This subcategory consists of nonwastewaters only.)*
- D006 Cadmium containing batteries
- D008 Lead acid batteries

If D004-43 boxes are checked, Underlying Hazardous Constituents Table must be completed and attached with this shipment.

- D004 Arsenic D005 Barium D006 Cadmium D007 Chromium
 D008 Lead D009 High mercury inorganic (>260 mg/kg total), Including Incinerator residue and residues from RMERC
 D009 High Mercury organic (>260mg/kg total), not including incinerator residue D009 All D009 Wastewaters
 D009 Low mercury (<260 mg/kg total) D010 Selenium D011 Silver
 D012 Endrin D013 Lindane D014 Methoxychlor D015 Toxaphene
 D016 2,4-D D017 2,4,5-TP(Sylvex) D018 Benzene D019 Carbon tetrachloride
 D020 Chlordane D021 Chlorobenzene D022 Chloroform D023 o-Cresol
 D024 m-Cresol D025 p-Cresol D026 Cresols(Total) D027 p-Dichlorobenzene
 D028 1,2-Dichloroethane D029 1,1-Dichloroethylene D030 2,4-Dinitrotoluene D031 Heptachlor
 D032 Hexachlorobenzene D033 Hexachlorobutadiene D034 Hexachloroethane D035 Methyl ethyl ketone
 D036 Nitrobenzene D037 Pentachlorophenol D038 Pyridine D039 Tetrachloroethylene
 D040 Trichloroethylene D041 2,4,5-Trichlorophenol D042 2,4,6-Trichlorophenol D043 Vinyl Chloride

SECTION (3) Listed EPA Waste Codes

SECTION (3A) F039 Multisource leachate
(If this box is checked, Underlying Hazardous Constituents Table must be completed and attached with this shipment.)

- F039 Multisource leachate,

Philip Services Corporation
RCRA Land Disposal Restriction Notification Form

This form is applicable to characteristic wastes (D Codes), listed wastes (F, K, U, and P codes), and Hazardous Debris.

SECTION (3B) — F001-F005-Spent Solvents

Check all F-Code number(s) that apply, and identify all the individual constituents that are present in the waste stream.

Hazardous waste description

F001 Spent halogenated solvents used in degreasing

Regulated Hazardous constituents

- | | |
|---|--|
| <input type="checkbox"/> Carbon Tetrachloride | <input type="checkbox"/> Methylene chloride |
| <input type="checkbox"/> Tetrachloroethylene | <input type="checkbox"/> 1,1,1-Trichloroethane |
| <input type="checkbox"/> Trichloroethylene | <input type="checkbox"/> 1,1,2-Trichloro-1,2,2-trifluoroethane |
| <input type="checkbox"/> Trichloromonofluoromethane | |

| <input type="checkbox"/> Methyl ethyl ketone | <input type="checkbox"/> 2-Nitropropane |
| <input type="checkbox"/> Pyridine | <input type="checkbox"/> Toluene |

SECTION (3C) Listed EPA Waste Codes (Other) (list all waste codes other than "F" listed codes not addressed in SECTION (3) above):

EPA Waste Codes	Subcategory						

SECTION (4) Hazardous Debris

(If this box is checked, complete the Hazardous Debris section below.)

Hazardous Debris

The definitions of "debris" and "hazardous debris" are in the 40 CFR 268.2. Per 268.45, hazardous debris must be treated for each "contaminant subject to treatment." To determine these, look up the waste code in 268.40 and list the regulated hazardous constituents for each code. (Check the box that applies)

- This shipment contains hazardous debris that will be treated to comply with the alternative treatment standards of 268.45 (e.g., macroencapsulation or abrasive blasting).
- This shipment contains hazardous debris that will be treated to meet the 268.40 treatment standards for the waste(s) contaminating the debris.

The contaminants subject to treatment for this debris are identified below.

EPA Waste Code	Subcategory	Contaminants Subject to treatment

Instructions

Column 1: Identify all U.S. EPA hazardous waste codes that apply to this waste shipment

Column 2: Choose the appropriate treatability group Non-Wastewater (NWW) or Wastewater (WW)

Column 3: Enter the appropriate Subcategory, if applicable. Also enter "Contaminated Soil" or "Debris" if the waste will be treated using one of the alternative treatment technologies provided by 40 CFR 268.49 (c) – soil, or 40 CFR 268.45 – debris.

Column 4: Enter the letter of the appropriate paragraph from pages 1-2 of this form.

Column 5: For F001 – F005, F039, D001 – D043, Debris and Contaminated Soil please enter the Reference Number(s) for any constituents in your waste stream subject to treatment. The Reference Number(s) can be found in the EQ Resource Guide, LDR/UHC Constituent Table.

Manifest Line Item	U.S. EPA Hazardous Waste Code(s)	NWW or WW	Subcategory	How Must the Waste be Managed?	Reference Number(s) of Hazardous Constituents contained in the waste. Complete for F001-F005, F039, D001-D043, Soil and Debris wastes.

How Must the Waste Be Managed?

S THIS CONTAMINATED SOIL DOES / DOES NOT CONTAIN LISTED HAZARDOUS WASTE AND DOES / DOES NOT EXHIBIT A CHARACTERISTIC OF HAZARDOUS WASTE AND IS SUBJECT TO / COMPLIES WITH THE SOIL TREATMENT STANDARDS AS PROVIDED BY 268.49(c) OR THE UNIVERSAL TREATMENT STANDARDS. I certify under penalty of law that I have personally examined and am familiar with the treatment technology and operation of the treatment process used to support this certification and believe that it has been maintained and operated properly so as to comply with treatment standards specified in 40 CFR 268.49 without impermissible dilution of the prohibited wastes. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment.

Land Disposal Restriction & Certification Form

- A. **THIS RESTRICTED WASTE REQUIRES TREATMENT TO THE APPLICABLE STANDARD.** This waste must be treated to the applicable performance based treatment standard set forth in 40CFR Part 268 Subpart C and Subpart D, 268.40 or RCRA Section 3004(d) prior to land disposal
- B. **THIS HAZARDOUS DEBRIS IS SUBJECT TO THE ALTERNATIVE TREATMENT STANDARDS OF 40 CFR 268.45**
- C. **THIS RESTRICTED WASTE HAS BEEN TREATED TO THE PERFORMANCE STANDARDS.** I certify under penalty of law that I have personally examined and am familiar with the treatment technology and operation of the treatment process used to support this certification. Based on my inquiry of those individuals immediately responsible for obtaining this information, I believe that the treatment process has been operated and maintained properly so as to comply with the treatment standards specified in 40 CFR 268.40 without impermissible dilution of the prohibited waste. I am aware there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment.
- D. **THIS RESTRICTED WASTE CAN BE LAND DISPOSED WITHOUT TREATMENT.** I certify under penalty of law that I personally have examined and am familiar with the waste through analysis and testing or through knowledge of the waste to support this certification that the waste complies with the treatment standards specified in 40 CFR part 268 subpart D. I believe that the information I submitted is true, accurate, and complete. I am aware that there are significant penalties for submitting a false certification, including the possibility of a fine and imprisonment.
- E. **THIS LAB PACK DOES NOT CONTAIN ANY WASTES IDENTIFIED AT APPENDIX IV TO PART 268.** I certify under penalty of law that I personally have examined and am familiar with the waste and that the lab pack contains only wastes that have not been excluded under appendix IV to 40 CFR part 268 and that this lab pack will be sent to a combustion facility in compliance with the alternative treatment standards for lab packs at 40 CFR 268.42(c). I am aware that there are significant penalties for submitting a false certification, including the possibility of fine or imprisonment.
- F. **THIS RESTRICTED WASTE HAS BEEN TREATED TO REMOVE THE HAZARDOUS CHARACTERISTIC AND CONTAINS UNDERLYING HAZARDOUS CONSTITUENTS THAT REQUIRE FURTHER TREATMENT TO MEET THE UNIVERSAL TREATMENT STANDARDS.** I certify under penalty of law that the waste has been treated in accordance with the requirements of 40 CFR 268.40 or 268.49 to remove the hazardous characteristic. This decharacterized waste contains underlying hazardous constituents that require further treatment to meet treatment standards. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment.
- G. **THIS RESTRICTED WASTE HAS BEEN TREATED TO REMOVE THE HAZARDOUS CHARACTERISTIC AND BEEN TREATED FOR UNDERLYING HAZARDOUS CONSTITUENTS.** I certify under penalty of law that the waste has been treated in accordance with the requirements of 40 CFR 268.40 to remove the hazardous characteristic and that underlying hazardous constituents, as defined in §268.2(i) have been treated on-site to meet the §268.48 Universal Treatment Standards. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment.
- H. **THIS RESTRICTED WASTE IS SUBJECT TO AN EXEMPTION FROM LAND DISPOSAL** (*Please include the date the waste is subject to the prohibitions in Column 5*) This waste is subject to an exemption from a prohibition on the type of land disposal method utilized for the waste (such as, but not limited to, a case-by-case extension under 40 CFR Part 268.5, an exemption under 40 CFR 268.6, or a nationwide capacity variance under 40 CFR 269 Subpart C)
- I. **THIS RESTRICTED WASTE WITH TREATMENT STANDARDS EXPRESSED AS CONCENTRATIONS IN THE WASTE PURSUANT TO 268.43, IF COMPLIANCE WITH THE TREATMENT STANDARDS IN SUBPART D OF THIS PART IS BASED IN PART OR IN WHOLE ON THE ANALYTICAL DETECTION LIMIT ALTERNATIVE IN 268.439(c).** I certify under penalty of law that I have personally examined and am familiar with the treatment technology and operation of the treatment process used to support this certification. Based on my inquiry of those individuals immediately responsible for obtaining this information, I believe that the nonwastewater organic constituents have been treated by combustion units as specified in 268.42, Table 1. I have been unable to detect the nonwastewater organic constituents, despite having used best good-faith efforts to analyze for such constituents. I am aware there are significant penalties for submitting a false certifications, including the possibility of fine and imprisonment.
